

Imagine premium wood replacement windows and doors that are so beautiful, so well made, and so energy efficient that they not only enhance your home's architecture, but also its value.

WHY SEQUEL

FINE CRAFTSMANSHIP. LASTING BEAUTY.

Craftsmanship shows. In the exceptional milling of our handcrafted wood interiors. The precision of our perfectly mitered corners. The superior durability of our extruded aluminum cladding. And in the exact fit of every custom-sized window and door.

Sequel®. A whole new reason to love your home. Available exclusively through The Home Depot.

- [Performance](#)
- [Aesthetics](#)

PROVEN PERFORMANCE.

Sequel products meet or exceed the stringent standards of the National Fenestration Rating Council, your assurance of outstanding performance.

SUPERIOR AESTHETICS.

Dress up your rooms with custom wood interiors. Choose from five wood species to complement your floors, trim, cabinets or furnishings.

MAINTENANCE-FREE EXTERIORS.

Preservative-treated wood frames are clad in heavy-duty .050 extruded aluminum with a baked-on polyester finish. It stands up to kids, weather, and the rigors of day-to-day life, and never needs painting.

ALL IMPROVEMENT. NO MESS.

Sequel insert replacement windows are custom-sized to fit perfectly into your existing frames. The Home Depot installation experts can install them in no time at all with little disruption to your walls and interior or exterior trim.

WINDOW AND DOOR BASICS

LEARN THE BASICS.

So you need to replace your old, drafty, outdated windows and patio doors. But where do you begin? Right here, with these handy window and door basics.

features wide stiles
and rails

Center Hinged

One swinging panel and
one stationary panel, both
with wide stiles and rails

French Sliding

One sliding panel and
one stationary panel, both
with wide stiles and rails

Sliding

One sliding panel and one
stationary panel, both with
narrow stiles and rails

GLASS OPTIONS

Most window and door manufacturers now use insulated glass, which consists of two pieces of glass that are hermetically sealed. This type of glass works well; however, various upgrades are available to improve performance and energy efficiency. These include:

Low-E – More energy efficient than insulated glass

Low-E with Argon Gas* – Takes energy efficiency to a higher level

MATERIALS

Aluminum-Clad Wood

Wood windows and doors with weather-resistant, maintenance-free aluminum-clad exteriors and wood interiors. As energy efficient as vinyl, with more design options. A good choice for added architectural impact and high-end results.

Other - Other types of materials on the market include vinyl-clad wood, fiberglass, and all-aluminum windows and doors.

All-Vinyl

Energy-efficient, maintenance-free windows and doors with vinyl frames, interiors and exteriors. Will not rust or rot. Usually available in limited colors and with limited options. A good choice for low-budget remodeling projects.

*Availability varies by location.

WINDOWS

SO BEAUTIFUL, WHO NEEDS DRAPES?

Add a new level of quality and style to your home. Built with all the care of fine furniture, Sequel® replacement windows insert directly into your existing openings to take the look of your home from well-lived in to well-loved in no time at all.

DOUBLE HUNG

We've taken a traditional favorite and made it even better to provide you with new windows of timeless quality.

FEATURES

Effortless Operation - Our block and tackle balance system enables both sash to easily open and close without sticking or binding.

Convenient Cleaning - Both sash are equipped with a tilt mechanism that enables you to tilt them into the room—or remove them completely—to simplify cleaning.

Enhanced Security and View - A metal, cam-action lock easily engages to keep your home secure. Instead of bulky hardware, Sequel uses a low-profile lock and keeper to provide you with a streamlined view.

CASEMENT/AWNING

Add a modern aesthetic with the contemporary style of Sequel casement and awning windows.

FEATURES

Maximum Ventilation - Sash can be opened to any position—up to a full 90°—for optimum airflow.

Enhanced Security - Our one-touch, multi-point locking system engages with the flip of a single lever to secure the window at multiple locations.

Easy to Operate - Metal roto-operator turns without effort.

SLIDING

Sleek and versatile, Sequel sliding windows make it easy to update the look of your home. Ideal for any room, including basement bedrooms where a means of egress is required.

FEATURES

Glides Without Effort - Durable nylon rollers glide easily and smoothly on a heavy-duty nylon track so the operating sash opens and closes without sticking and binding.

Convenient Cleaning - The operating sash is equipped with a tilt mechanism that enables you to tilt it into the room—or remove it completely—for convenient cleaning from indoors.

Dependable Security - A metal, cam-action lock easily engages to keep your home secure. Its low-profile design reduces the appearance of hardware.

BOW/BAY

Views are more expansive and rooms seem larger with Sequel bow and bay windows.*

FEATURES

Stunning Combinations - Bays feature picture windows flanked by 30° or 45° double hung or casement windows. Bows feature casement windows mullied into a gentle 10° curve.

*Bows and bays are not insert windows.

PICTURE

Graceful curves. Dramatic angles. Custom geometric shapes. They can all be yours with Sequel picture windows. Breathtaking alone or when combined with other window styles and patio doors.

FEATURES

Superior Aesthetics - Furniture-grade pine or hardwood interiors add character and architectural appeal.

Maintenance-Free Exteriors - Aluminum-clad exteriors never need painting and

are available in eight standard colors.

Reduced Energy Costs - Low-E glass with Argon gas* combines with our warm edge spacer system to reduce the conduction of heat and cold and minimize condensation. Multiple weather stripping virtually eliminates water and air infiltration.

SLIDING

Sequel's contemporary-style sliding patio doors have narrow stiles and rails to provide you with more glass and an expanded view.

FEATURES

Exceptional Strength - Glued, multi-doweled joints keep panels from twisting, drooping or bowing to ensure proper alignment and smooth operation for years to come.

Enhanced Security - A security foot bolt enables the door to be locked in an open position, providing you with both safety and ventilation.

Smooth Operation - Operating panels are equipped with dual tandem rollers so they open and close without sticking or binding.

CENTER HINGED

If you like the ambience of a classic French door, but lack the room for two swinging panels, our center hinged door is the ideal solution. It features wide stiles and rails, one swinging panel and one stationary panel.

FEATURES

Exceptional Strength - Sturdy, 1-3/4" panels have glued, multi-doweled joints to prevent twisting, drooping or bowing.

Enhanced Security and Fit - An advanced, corrosion-resistant stainless steel locking system secures the operating panel at five locations. To keep the operating panel swinging sound and true, it is equipped with four adjustable hinges instead of the industry standard of three.

Decorative Hardware - Some think of it as hardware. We think of it as another way to express yourself. Choose from French or contemporary handles in a variety of designer colors.
